

HALO LED180 SERIES

The LED180 Halo Series from Dracast is designed to provide a unique light source that is perfect for portrait and product photography and videography. The Halo fits around the lens of your camera and provides a 360° light source. This specialty light contains 252 surface mounted LEDs softened by an included light diffusion filter. The Halo LED180 comes in either single or variable color temperature models. The variable color temperature is adjustable between 3200k and 5600k enabling you to perfectly match skin tones or ambient light. All Halo Series lights have a CRI rating of 96, and include a 180° rotation yoke for maximum versatility.

Specifications | Details

Optical System	252 SMD Beads
Light Aperture	518.4 in ²
Beam Angle	120°
Weight	2 lbs
Mounting	Hot Shoe Mount
Voltage Input	DC 15V
Power Consumption	55W
AC Connection	Standard Barrel Connector (10x5x2.5 mm)
Battery Connection	DTAP Cable, 12-15V
Battery DC Voltage	15V
Color Temperature	3200K-5600K
Color Rendition	CRI 96+
Dimming	10-100% Continuous
Controls	PWM Dimming Technology and On Board Manual Control
Housing Build	Aluminum
Est. LED Lifetime	50,000 Hours

Available Accessories

DRSM360	360° Swivel Mount
DRDLS805	REGULAR LIGHT STAND
